

Option 3 (Proposed) – IBC tote at rear door, purifier along driver side, generator room at cab end

Plan view, cab to the right. Dimensions in mm. Cargo box 4100 × 2400 (161 × 94.5 in) interior clear. Dashed outlines = drip trays (≥ 2 in rim, 1 in drain). Yellow = walkway. Walkways: main 1090 mm (42.9 in), rear section 660 mm (26.0 in) – both ≥ 24 in. IBC against driver wall, swapped by forklift through rear door (verify door clear opening). CG (est.): 3 units 2450 kg + tool/parts rack ~200 kg + full diesel ~200 kg = 1907 mm from rear wall, 114 mm toward driver side. Exhaust exits through roof.

Preliminary layout for discussion – not for fabrication. Verify against actual box, rear door, axle positions and weights.
